HOLTUS PADDINGTONENSIS:

OR,

A CATALOGUE

OF

PLANTS

CULTIVATED IN THE GARDEN

0 F

J. SYMMONS, Esq.

Paddington-House.

By W. SALISBURY, GARDENER.

I cannot but think the very Complacency, and Satisfaction which a Man takes in these Works of Nature, to be a laudable, if not a virtuous Habit of Mind.

Addison.

Landon:

PRINTED BY STEPHEN COUCLIAN,

FOR SHEPPERSON AND REYNOLDS, Nº 137, OXFORD-STREET;

AND SOLD BY MOST OF THE NURSERY AND SEEDS-MEN,

IN AND ABOUT LONDON.

TO

JOHN SYMMONS, Efq. F. R. S.

SIR,

ANXIOUS to gratify the wishes of several persons, occasional visitants of your Garden, illustrious in rank, and eminent in superior talents, who have been pleased to think, that a Catalogue of the Plants in your extensive collection, would, at the same time

DEDICATION.

time as it displayed your vegetable riches, which your liberality renders acceffible to every one, in some degree contribute to diffuse a more general knowledge of Plants; I have prefumed to lay before the Public, the following Catalogue. And if the present worl, fhould hereafter excite fome person of superior abilities, to undertake a general one, on a fimilar plan, which, I am truly scusible, would be of material service to Botanic Science, my humble endeavours will be amply repaid; as well by deriving the peculiar fatisfaction of not having wholly misemployed my time, as by affording me an opportunity, highly gratifying to my feelings, of testifying the happiness I have experienced in Four fervice, where the opportunities I have enjoyed, have afforded me ample means, of enlarging my fmall stock of botanic knowledge.

Accept, Sir, the effusions of a fincere and grateful heart; wishing you health, long to enjoy that complacency and satisfaction, your elegant and scientific mind must feel, in contemplating the beauties of a vegetable world; formed under your softering hand, and supported by your generous bounty.

With the highest respect,

I am,

SIR,

Your obliged and obedient Servant,

W. SALISBURY.
